

VIZUON PRINT™

WIN-DECO Film

LG WIN-DECO film is a printable graphic film for windows. It prevents exposure from ultra violet light, and the various embossed patterns provide beautiful visual effects. Available in a range of 8 colours and patterns.

LA8082 Frosted Pearl not shown due to its heavy glitter frosted nature.

WIN-DECO Film

Window Decoration Film

Type	LC5510/LC5511	LC5520/LC5521/ LC5522/LC5540/ LC5550	LA8082
Production	Electro cut, hand cut, kiss cut, die cut		
Application Period	Medium to long term applications		
Areas of Use	Application of signs and graphics for internal and external installations on glass surfaces in homes, buildings and/or vehicles. For use as a decorative product, to conceal unsightly building features or provide privacy to clear internal partitions, doors and windows. Ideal for blocking UV exposure, and controlling visible light transmission or glare.		
Colours	8		
Adhesive	Pressure sensitive, transparent, permanent, acrylic based.	Pressure sensitive, transparent, removable (glue free), acrylic based.	Pressure sensitive, transparent, permanent, acrylic based.
Warranty Length	5 year external applications on vertical glass surfaces. 10 year commercial applications on internal glass surfaces. Lifetime residential applications on internal glass surfaces.		
Vinyl properties	The surface of the vinyl appears dusted, textured or frosted. The adhesive is transparent so colour and texture are visible from either side. Vinyl has excellent durability and is resistant to ultra-violet rays.		
Printability	Excellent for solvent inkjet printers
